

## Youth Outcome Questionnaire (YOQ)

<b>Name of instrument</b>	<b>Youth Outcome Questionnaire (YOQ)</b>
<b>Summary overview</b>	“The Youth Outcome Questionnaire (YOQ) is a brief 64-item parent report measure of treatment progress for children and adolescents (ages 4 – 17) receiving mental health intervention. The YOQ is meant to track actual change in functioning as opposed to assigning diagnoses.” (web site, <a href="http://www.oqfamily.com">www.oqfamily.com</a> ) The Youth Outcome Questionnaire – SR, an adolescent self report measure, is also available and is appropriate for ages 12 – 18.
