

FY2008 Performance Incentive (PI) Projects

- PI #1: Using the MassHealth Prescriber Profile Reports to Identify and Manage MBHP Psychiatric Prescribing Outliers and Poly-Psychopharmacology and thereby Improving Quality of Care and Quality of Life for Covered Individuals
- PI #2: Develop and Implement a Model of Peer Specialist Participation in Behavioral Health Services for Covered Individuals – Phase II; and Develop Consumer-Operated Warmline Services for Covered Individuals Who Would Benefit from Peer Support
- PI #3: Expanding and Enhancing Parent Leadership Training for Parents Involved in the PCC Plan
- PI #4: Enhance Network Capacity to Improve Treatment and Support the Recovery of Adolescents and Transitional-Aged Youth from Alcohol and Drug Dependence
- PI #5: Expand the Effective Use of Buprenorphine for Covered Individuals through the Distribution of Suboxone Guidelines and through the Development and Implementation of a Protocol for Monitoring Qualified Physicians' Buprenorphine Prescription Practices
- PI #6: Conduct a Statewide Study to Evaluate the Prevalence of Racial Disparities in Access to Appropriate Behavioral Health Care and Develop Strategies to Mitigate Racial Disparities Where Such Disparities Exist for Covered Individuals
- PI #7: Building the Foundation for Evidence-Based Practices in Network Outpatient Services through the Development of New Learning Models
- PI #8: Continuing Implementation and Further Expansion of the Web Behavioral Health Resource Guides for State Agency Caseworkers
- PI #9: Expanding Existing Massachusetts Child Psychiatry Access Project (MCPAP) Model to Support Schools in Improving Students' Access to Pediatric and Behavioral Health Services
- PI #10: Improve Treatment Outcomes among PCC Plan Adults Receiving Transitional Assistance for Families with Dependent Children by Developing a Clinical Treatment Model for Members Whose Behavioral Health Disorders Are a Barrier to Sustained Employment
